## **Tobago Hospitality & Tourism Institute is Open for Business**

**Mt. St. George, Tobago, August 22, 2020:** The Tobago Hospitality and Tourism Institute (THTI) would like to inform the Trinidad and Tobago public that the institution is currently functioning, and will continue to function as the premier tertiary education institution in Tobago offering hospitality and tourism training. While THTI has instituted all the Covid-19 measures for the education sector announced by the Government of Trinidad and Tobago since March 2020, including campus closure, the staff have worked diligently to migrate learning onto our online platform and to provide remote support to our faculty and students since March 23, 2020.

The Tobago Hospitality and Tourism Institute is currently enrolling students for the Associate Degree Programme for the January 2021 intake. Interested persons can register online from our website at [www.thti.edu.tt](http://www.thti.edu.tt). THTI also offers short courses for professional skills upgrading or personal interest, as well as Prequalification Programmes that offer a pathway for students who have not attained all the required CXC subjects to apply into degree programme.

THTI is the only ACTT accredited hospitality and tourism institution in Trinidad and Tobago.

## **ABOUT THTI**

The Tobago Hospitality and Tourism Institute (THTI) is Tobago's premier tertiary education institution that develops human capital for the hospitality, tourism and related sectors of the economy. THTI was founded in 1997 to address the need for trained professionals to compete in a globally competitive market, alongside other Caribbean islands. In 2009, THTI became the first indigenous Tobago institution to be registered with the Accreditation Council of Trinidad and Tobago (ACTT). THTI attained ACTT Institutional Accreditation status in 2014 and again in 2020. Located on a 100-acre estate of pristine forest lands overlooking the Atlantic Ocean, THTI's sprawling campus is nestled within farming and fishing communities of Mount St. George, Tobago. The institute is equipped with one of the largest commercial kitchens in the Caribbean region and regularly hosts culinary experiences such as international fine dining and wine tastings.
